

EDGE® 4-IN-1 COMBINATION BUCKETS

The multi-tasking 4-in-1 bucket keeps your compact loader productive and profitable. Use one bucket for a wide variety of applications, such as grading, scraping, grappling, dozing dirt, brush removal, material spreading and more. The high strength steel clam shell bottom is shaped to prevent bowing of heavy material and two large, guarded cylinders provide powerful clamping.

OPERATIONAL BASICS

The EDGE 4-in-1 combination buckets are available from 60" (1524 mm) to 84" (2134 mm) as standard duty, heavy-duty and heavy-duty with teeth models. Heavy-duty buckets feature reinforcement plates and a holding valve to keep clam in locked position. All 4-in-1 buckets come standard with 3/4"x6" weld-on cutting edges with holes as well as bolt-on cutting edges for front dozer edge and rear of the clam edge. All units come complete with hoses and fl at face couplers.

Optional cutting edge or serrated edge is available for front of bucket

SPECIFICATIONS

| Model | Weight (lbs/kg) | Overall Width (in/mm) | Inside Width (in/mm) | Depth (in/mm) | Height (in/mm) | Heaped Cap. (ft ³ /m ³) |
