

ELECTRIC SPREADER

EDGE® ELECTRIC SPREADER

The EDGE electric spreader is designed to handle most dry, free flowing granular materials, including; salt, seed, and fertilizer. Sand is not recommended for use in this electric spreader.

OPERATIONAL BASICS

Ideal for sidewalks, grass or soil; the EDGE electric spreader is engineered with minimal moving parts to reduce maintenance costs. An optional gate assembly controls the flow of light materials to the discharge assembly. This unit features a heavy duty 12 volt DC motor in a weather tight enclosure, and a low profile design for operator visibility.

SPECIFICATIONS

Model	Weight (lbs/kg)	Cap. (ft ³ /m ³)	Cap. (lb/kg)	Power	Spreading Width (in/mm)
SS575	106/49	5.75/.16	460/209	12-15 amps	4-40/1.2-12

FEATURES

- Spread salt, seed or fertilizer quickly and efficiently
- Minimal moving parts reduces maintenance costs
- Optional gate assembly to control flow of light materials to the discharge assembly
- Heavy-duty 12 volt DC motor in a weather tight enclosure
- Low profile design for operator visibility
