

EDGE® GRADER RAKE

From turf and seeding projects to heavy duty landscaping, there is an EDGE rake attachment available to turn your compact loader into a valuable landscaping machine. The EDGE grader rake is ideal attachment to scarify, smooth and level hard-packed soil.

OPERATIONAL BASICS

The EDGE grader rake separates debris from dirt and soil, so it works great for job site cleanup. The heavy-duty spring tines increase digging action for grading while the full-floating design and oscillation can follow uneven grades. The EDGE grader rake hydraulically angles up to 20 degrees right and left and is available in 82" (2083 mm) and 92" (2337 mm) widths. The grader rake comes complete with a hose saver kit, hoses and flat face couplers.

SPECIFICATION

Model	Weight (lbs/kg)	Straight Path (in/mm)	Angled Path (in/mm)	No. of Tines	Cylinder Size(s) (in/mm)
GR82	600/272	82/2083	77.1/1958	32	1x11/25x279
GR92	650/295	92/2337	86.5/2195	36	1x11/25x279

FEATURES

- Full floating design follows compound grades
- Tines scarify and level hard-packed soils
- Hydraulically angles 20 degrees right and left
